WHAT IS THE ALADINO BET

TIME TO MARKET

We have noticed the discrepancy between the news reported in the media and the actual investment movements of large companies and funds. It's completely contrasting. Big companies are focused on purchasing their miners today. Aladino's challenge is to have \$100 million worth of miners installed before the start of the bull run, following the exact investment strategy of major funds.

BET LIKE A PRO!

Are you ready to bet like the big players? At Aladino, we've cracked the code to success in the mining world, and we want you to be part of it.

Our strategy is simple: Purchase an NFT (Hash Rate) and be on your way to having your mining operation ready. The world of cryptocurrency mining is evolving rapidly, and we're ahead of the curve, secure your place.

ALADINO CLIENTS

Inflation, also known as silent tax, is a global economic issue, eroding currency purchasing power over time.

To combat it, people buy assets that appreciate with inflation and monitor central bank policies.

Altcoins mining can offer a potential hedge against inflation compared to traditional savings accounts or cash hoarding.

Miner's computers now meet the monthly minimum industry requirements that were previously asked to Affiliate Members.

A throwback pic from a few moons ago. I've got a soft spot for motorcycles and dabble in a bunch of sports. The hair's taken a step back, and my beard's rocking that silver fox look, quite the opposite of this AI-touched pic. At Aladino.io, you'll find my outdated LinkedIn profile and background, which I'll dust off every now and then (maybe once every year or two). I'm not a big fan of the social scene.

PAOLO MUSUMECI
CFO

I started working as a certified public accountant and tax consultant, but I wasn't happy because I was helping people lose money and, moreover, making them pay taxes for not getting back the services they needed. So I started working inside companies to avoid these tears, with partial improvement. Today with Aladino I can also put together my experiences in crypto mining and make people happy.
